Reviews

It is really an remarkable ebook that we actually have ever read through. I actually have study and i also am confident that i am going to gonna study once more yet again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

The power saving features of regeneration, I may, however, say in this connection is not considered by us so important as the increased safety and ease with which trains are handled on the heavy mountain grades and the saving in wear and tear on brake shoes and equipment. So much has already been said by others about this feature of our installation that I will not go into the matter further here. The Train Sheet, Figure I, is a graphic time-table for twenty-four hours of operation on the Harlowton-Deer Lodge division. The horizontal scale shows the stations, many of them only passing track locations, in their proper relative positions, and the vertical scale the hours of the day. Each slanting line represents a train, the heavy lines being passenger trains and the light lines freight or work trains. This chart, therefore, gives an idea of the typical number of trains and the business done for which the figures in the accompanying tables apply. It also shows the exact location of each train on the division for each moment of the day. On the right of the train sheet is an electric load curve which shows at any moment the amount of electric power delivered to the system at any instant and the corresponding locations of the different trains. A profile along the lower side of the...
